SET OF 2 CENTAURS STATUES ON PEDESTALS

\$39,600

DESCRIPTION

These two statuettes are inspired by ancient mythology and depict the traditional centaur, half man and half horse. Each statue rests on a classically-shaped pedestal in black marble with striking inserts and feet in yellow marble. The bronze statues represent one bearded centaur trotting and one younger centaur in a victorious pose, holding a club and pig's skin. The use of ancient materials and classical distinctive themes make this set an elegant addition to any home.
