SET OF 2 CENTAURS STATUETTES

\$3,635

DESCRIPTION

This elegant set in bronze depicts two centaurs in classical poses, exquisitely depicted using the lost-wax casting technique, with particular attention to details such as the hair, finely rendered in bas relief on the body of the torso and on the half-horse legs. The centaurs rest on a short bronze base and can be used as timeless centerpieces, elegant bookends, or decorative statuettes with a millenary allure.
