SET OF 2 DECO BOWLS #6

\$120

DESCRIPTION

Inspired by the colors and designs of the Art Deco era, this exceptional set of bowls will be the crowning piece of any modern table setting. The bowls are distinguished for their hand-painted accents, notably a bold black hibiscus flower with red and blue accents framed by five mustard-yellow panels along the border that follow the rhythm of the petals. A fine, double-line design in black along the top rim completes the piece. The bowl (15 cm) is perfect for serving soups, fresh fruit, or desserts on both formal or casual occasions.
