SET OF 2 MAY LARGE WINE GLASSES

\$245

DESCRIPTION

With the interior fluting of its hollow stem, this unique contemporary glassware design channels that natural lightness and expressive freedom of the season. At once a modern take on stemware and a wink to nostalgia with its vintage touch, the May Collection has earned its place as a classic among the Fferrone glassware collections. The May Glassware Collection includes drinking glasses for a complete table setting. Each piece is hand-formed without the use of molds by master glassblowers.
