Blueside Perugia

SET OF 2 MOON COGNAC GLASSES

\$95

DESCRIPTION

This borosilicate glass piece is hand made and designed for great cognacs and precious liqueurs. It is the result of the compromise between a comfortable grip and the best olfactory experience possible. The half-spherical silhouette has a thick surface that guarantees an ideal temperature and the double support allows for the glass to be kept straight while pouring it and tilt it while resting it, facilitating the aromatic rise.
