SET OF 2 SILK AND LINEN PLACEMATS IN BLUE

\$100

### DESCRIPTION

A harmonious mix of Turkish tradition and Italian craftsmanship, these placemats were entirely made by hand and consist of two parts: the back and central front areas are in linen made by Italian artisans, while the edge that runs all around the central part is in silk, treated according to the traditional Turkish dyeing technique called Ikat. The abstract decorative patterns will bring a touch of color and sophistication to any table.
