Lucia Cavalli

SET OF 2 TEA CUP #4

\$200

DESCRIPTION

Part of a striking collection of five tea cups each boasting a different decoration made in pencil, this piece boasts the charming portrait of a woman, under the enamel finish. The standout feature of this piece is the fact that it was made using the crafting techniques that traditionally belong to the town of Lodi, near Milan. With time and the exposure to heat, these ceramics develop a delicate net of cracks on their surface, telling their unique history and creating a one-of-a-kind decoration.
