**SET OF 2 TEA SAUCER #1**

\$200

## DESCRIPTION

Part of an exquisite set of cups and saucers adorned with unique sketches made in pencil and coated with a delicate enamel finish, this saucer was crafted using the traditional methods of Lodi ceramics. What distinguishes the pottery of this town near Milan is its crystal-like surface that, with time and exposure to heat, is embellished by tiny cracks. Each imperfection tells a story and is a mark of true craftsmanship, making each piece unique. This saucer can be paired with any other the cups from the series to create a unique set.
