SET OF 4 VINCENT CHAIRS

\$38,400

## DESCRIPTION

Hand Caning is woven strand by strand all by hand attaches to the wood by holes drilled through the wood. Hole to hole weaving dates back The strips of bark are cut into cane strips of uniform width and depth, referred to as peel. Each chair is evaluated, fitted with the correct size of cane, and woven to meet professional, historical, and museum standards This set of four hand-caned wooden chairs is inspired by Vincent Van Gogh's "Vincent's Chair with His Pipe" (1888). Instead of the solitude represented in the original paintings, these Vincent Chairs represent the chairs from our memories, a reminiscence from everyone's story. This set comes in five different versions and each chair is unique, hand-made piece. Each piece made by Atelier Biagetti is numbered and supplied with an authenticity certificate.
