SET OF 6 FIZZY BLUE MURANO GLASSES

\$1,030

DESCRIPTION

The Fizzy glasses are of cylindrical shape, crafted with the rigà-menà technique. The blue is modernized by the orange rim. The blue Fizzy glasses are the outcome of an extremely laborious day spent in Murano with Maestro Gianni Seguso. The combination of the technique used by the maestro to obtain the stripy glass and the summery colors produces a very fresh glass to be used on our tables to add light. For freshwater, spritz, rosè wine or smoothy, these glasses are just perfect for every use.
