SET OF 6 PURO BALTICO STEM GLASSES

\$230

DESCRIPTION

This striking set is made up of six stem glasses, each entirely handmade according to the traditions of Venetian glass-making. The round base and low stem are tinted with an elegant blue color that is ideal for a dinner on the patio of a summer home or a spring party. The color fades toward the cup, creating elegant nuances that complement the smooth surface of the piece. Part of the Puro collection, this set can be combined with other items in the same collection.
