SET OF 6 TORSÈ ACQUAMARINA STEM GLASSES

\$250

DESCRIPTION

Part of the Torsè Collection, this set is made up of six stem glasses entirely handcrafted of glass. The combination of traditional methods and modern design creates a sophisticated and timeless set for any occasion. The round base and low stem are colored with a hint of blue that fades toward the center of the piece, adding an elegant shade that will enliven an all-white table. The twisted pattern on the surface adds a striking sense of movement.
