Mun

SET OF 6 TORSÈ BALTICO STEM GLASSES

\$300

DESCRIPTION

This fine set is part of the Torsè Collection and was entirely handcrafted by master artisans according to traditional Venetian methods. Each of the six stem glasses features a vivid aquamarine color that fades into the stunning cup. A series of parallel grooves adorns the cup, creating a textured surface with a twisted pattern. Adding a pop of elegant color to any table, this set can be combined with other Mun glasses for a striking effect.
