SET OF FOUR ROUNDED LITTLE BLUE FISH GLASSES

\$310

DESCRIPTION

Each glass in this elegant set features a sinuous shape tapering slightly at the top. Suspended in the vessel, on a small transparent glass attachment, is a detailed mouth-blown glass fish in bright blue. This creates the illusion that the fish is swimming in the deep ocean. This set can colorfully decorate a dining table when combined with existing table ware collections and it can also be paired with the Little Red Fish glasses for a striking effect.
