SET OF 6 METÀ MORPHOSIS TEA CUPS AND SAUCERS

\$825

DESCRIPTION

A delicate way to elevate a simple everyday moment to a refined ritual, this set of tea cup and saucer is the ideal addition to a sophisticated home. Both pieces are crafted of transparent glass and can be combined with other items in the same MetàMorphosis collection, creating a cohesive look. The smooth surface of the saucer contrasts with the exquisite texture that graces the bottom of the cup, with a series of diagonal lines running parallel within a waving edge.
