SHARK CHAISE LONGUE

\$2,110

DESCRIPTION

An exquisite contemporary interpretation of the archetypal convertible seat, this chaise longue boasts a versatile and extremely functional personality in a minimalist look. Comfortable and lightweight, it is made of Tecnorev and is easily transportable and convertible: it can be disassembled and changed from a seat to a chaise longue to a modular sofa. Reminiscent of a shark fin, the shape of the backrest is both an aesthetic and functional detail, for it keeps the chair stable when closed.
