SHINE SCONCE

\$4,190

DESCRIPTION

This magnificent sconce can be displayed alone or paired with another one to flank a mirror for a striking effect. Made entirely of brass, its vertical structure is made up of elements positioned at different heights to create the shape of a diamond with the central part in natural finish and the tips in bronzed brass. The shade, a minimalist cylinder in sage green satin, complements the warm glow of the metal for a sophisticated final effect.
