TABLETOP

*Giovanna La Falce*

**SICILIA GLASS IN WHITE**

**\$70**

## DESCRIPTION

The glossy white surface of this ceramic glass is highlighted with an exquisite texture created with the use of the mold of a 19th century Sicilian crystal glass. This is a unique piece because it is entirely hand painted with non-toxic colors that are suitable to be in contact with food and drinks. The artist will be able to recreate this object, but it will show slight differences in appearance because of its handmade nature.
