### SIDE TABLE

\$1,080

#### DESCRIPTION

An exquisite addition to a classic interior, this side table boasts a traditional-inspired design, evident in the curved, three-element base from which stems the sinuous central support for the round top. The entire piece was crafted of solid beechwood with a hand-applied finish that lends a special one-of-a-kind quality. As for any furniture by Andrea Nardin, it is possible to add different features upon request, please contact the Concierge for options and pricing.
