SIDEBOARD WITH CLASSICAL BAS RELIEFS

\$10,190

---

## DESCRIPTION

A celebration of classical art, this sideboard reinterprets the iconic ancient Greek and Roman sculptures in three stunning bas-reliefs adorning the panels at its front. The four slanted legs are made of wood with a dark walnut finish, supporting the minimalist sideboard with front and top in stone resin, a compound of natural minerals and resins, very similar to ceramic that is highly durable and flame-resistant. The piece features two side doors and two central drawers, all with push-pull opening.
