Petri Firenze

SILVER AND HORN PITCHER

\$4,460

DESCRIPTION

Part of the Horn Collection, this superb pitcher will be the focal point of a modern table setting during formal dinners and holiday parties. Handcrafted of 925 silver, the interior has a hand-hammered surface while the sharply angled spout, the curved handle, and the large bands that outline top and bottom rims feature a smooth, polished finish. The distinctive, slightly tilted silhouette results from the natural curve of the magnificent authentic horn that graces the outside of the pitcher, whose polished surface enhances the horn's exquisite natural veining for an iridescent-like quality.
