\$235

DESCRIPTION

Combining the modern choice for a monochromatic finish and the traditional crafting method and iconic inspiration of Caltagirone ceramic artifacts, this set of two vases is a unique work of art that will add a superb touch to any home. Either displayed with flowers or as is to highlight a room decorated in neutral or metal tones, this set will add a strong visual impact to any room. Both pieces were crafted by hand according to ancient and complex methods that include two firings in the kiln. The two enamel finishes boast a silver color for the Moor's head and all white for the woman.
