SILVER TWIRL EARRINGS

\$170

DESCRIPTION

Brimming with allure, this bold pair of earrings will elevate the originality of any outfit. The unconventional silhouette is made of sterling silver using the lost wax technique, resulting in a set in which each earring is one half of a snake, one shaped as the head and neck and the other as the curved body and tail. These earrings can be worn either as separate pieces on each ear or individually for a dynamic minimalist look.
