SILVER TWISTED RINGS

\$350

DESCRIPTION

This set ring can be worn alone as a statement piece or with other pieces from the Enchanted Collection for a more lavish look. These three rings combine to form one snake body, ideally worn in a single line across three fingers. Fashioned of sterling silver, each ring boasts a separate section of the snake (the head, the body, or the tail) and can be accented or interrupted by delicate stackable rings. This ring trio is a must-have accessory for the modern woman, the flexible ring bands allowing for versatile wear that suits any ring size.
