## SINGOLO WALNUT BOOKSHELF

\$2,790

### DESCRIPTION

Minimalist and sophisticated, this bookshelf can be directly put on a wall or in the middle of a room as a divider. Its light silhouette and exquisite craftsmanship make it a striking piece of functional decor that recalls the facade of a building, a three-dimensional boiserie. Entirely made in canaletto walnut, this piece is comprised of two vertical panels that frame four horizontal shelves. Its versatile shape can have different heights and can be made also in natural durmast oak or durmast painted black. Please consult the concierge about possible changes in price for customization.
