LIGHTING : SCONCES & WALL LAMPS

*Lumis*

SIRIUS SCONCE

\$1,100

---

## DESCRIPTION

This striking sconce is entirely made in metal and consists of a round base supporting a double structure, both with a modern chrome finish. The result is that the two conic shapes that are attached to the structure face each other creating unique lighting effects. The black varnish of the shades complements the chrome of the rest of the piece, making it a very elegant and contemporary piece, ideal for a modern setting.
