SISSI BOWS FRAME

\$170

DESCRIPTION

Florentine Renaissance splendor is the inspiration for this superb frame crafted of natural brass and entirely chiseled by hand. The oval shape is followed by a garland of stylized leaves rendered in bas-relief. The top is enlivened by a bow elegantly textured to add a graceful accent to the rigorous pattern of the frame. Showcased as a standalone accent piece or combined with others by Il Bronzetto to create a picture gallery in a classic interior, this frame will capture the eye.
