**SITLALI ROCKING ARMCHAIR BY PHILIPPE BESTENHEIDER**

\$22,290

## DESCRIPTION

Sitlali draws its inspiration from the archetype of the English chair, the Windsor chair, a chair conceived at the end of the eighteenth century as a country furnishing. The back is designed as a fan of thin overlapping rods and the same structure and overlapping rods also define the base of the chair, making up the legs that end in the curve of the rocker, creating a coherent, light constructive unit. It is a furniture piece that astonishes and invites one to relax for a moment of reflection.

## DETAILS & DIMENSIONS

- Material: Wood
- Dimensions (in): W 44.09 x D 37.01 x H 57.87
- Dimensions (cm): W 112 x D 94 x H 147
- Handmade In Italy
