SKY WITH GALAXIES AND GEOMETRIES IRIDESCENT LUSTRE VASE

\$2,245

DESCRIPTION

A generous and traditional shape reinvented with a glamorous metallic iridescence defines the aesthetic of this stunning ceramic vase. A motif of galaxies and geometric elements emerges from the lustrous backdrop, whose finish and long-lasting nature is owed to the chlorides, nitrates, and sulfates added prior to the second firing in a reduction kiln following an ancient Persian technique for lustreware.

DETAILS & DIMENSIONS

- Material: Ceramics
- Dimensions (in): W 9.45 x D 9.45 x H 15.75
- Dimensions (cm): W 24 x D 24 x H 40
