SLEEPINGMOON VASE

\$1,680

DESCRIPTION

This striking vase can double as centerpiece or sculptural decoration, to add modern elegance to an entryway, a living room, or a dining room. Inspired by the moon as seen when rising, its welcoming concave silhouette rests on a semi-spherical base. Both elements are made of silver-plated metal with a unique spiral decorative pattern throughout that reflects the surrounding light in a sophisticated way. The top of the piece features a hole, for cut flowers and other arrangements.
