SMALL BAR CHEST

\$16,360

DESCRIPTION

A stunning addition to modern or rustic decor, this bar chest is a precious example of gothic style originated in the French region of Elsass, at the border with Germany. Handmade using 400-600 years old larch, this piece boasts striking traditional decorations on sides and front that were hand-carved in symmetrical bas-relief motifs. A small button on the sides activates a hydraulic system that allows the piece to easily open (also available with remote control upon request). This chest is also available in a larger size.
