LIGHTING : TABLE LAMPS

*Francesco Meda*

**SMALL BRIDGE LAMP**

\$290

## DESCRIPTION

This unique lamp is crafted using brass sheets that have been cut by lasers and later bent to achieve this striking shape that resembles a bridge whose top hides a LED strip. The natural glow of the brass can attract light even when the lamp is not operating and, when it is on, it consistently illuminates its surroundings. The noble brass paired with the modern techniques used to craft it make this object a modern and timeless piece ideal for any setting.
