SMALL FONDA VASE - SATIN SAVOY BLUE

\$660

DESCRIPTION

Inspired by this ancient fishing tool, this vase takes up the broad shape closing at the base to remind of the bottleneck of this fishing net. Wide-ranging rigadin finishing that enhances strong and intense colors in both transparent and satin-finished versions. The “Mare” collection was born from the colors and shapes of the Venice lagoon. The “peocere”, tens and tens meters long mussel farming strings rising vertically, draw the shapes of the sunset over the clear and calm waters of the Serenissima. Spots of color in confined spaces made of lights and reflections. These are the splendors that have inspired the collection of vases, large centerpieces, and fruit bowls. A collection characterized by bright and vivid colors, whose finishing is a tribute to one of the most classic Muranese techniques: the “rigadin”. The chosen colors, Blu Savoia, Verde Pavone, Arancio, Ambra and Verde Erba light up this collection.
