SMALL GUNTER TRUNK

\$6,000

DESCRIPTION

The elegance of the '60s is embodied in this stunning trunk inspired by photographer Gunter Sachs hopping on and off airplanes with his brown leather camera bag. To celebrate this timeless look, Kapitano created a sophisticated piece of luggage with a rich brown-hued leather upholstery that covers the birchwood frame, enriched by smoother cuoio straps and corners, and gold-plated metal hardware. The aluminum puller, with exotic wood inserts, and high-density rubber wheels add a functional touch to this piece. The interior is generous and lined in wool. This trunk is handmade and customizable.
