L'argento Firenze

SMALL MOTHER OF PEARL SHELL SCULPTURE

\$530

DESCRIPTION

This charming sculpture was made using traditional techniques and noble materials. The result is a classically-inspired decorative object that will make a statement in any home, particularly if furnished in a traditional style. An exquisite silver base supports a shell sculpture made of mother of pearl, whose shimmering hue complements the elegant color of the 925 silver, which recurs on the top decorations for a sophisticated final effect. Either alone or paired with the Large Mother of Pearl Shell Sculpture, this piece will be a splendid addition to any room.
