## SMALL ORANGE HEAD VASE

\$265

### DESCRIPTION

This exquisite vase was handmade entirely of ceramics. Its delicate shape evokes the silhouette of a woman's head with an elegant neck, while the top of the vase opens in a large mouth. The paint was hand applied and the striking color block combination creates a contrast where the green hair meets the orange of the face. The vase is completed with the application of two decorative elements like earrings adorning each side of the head.
