Bitossi Ceramiche

SMALL RED CENTERPIECE BY ARIK LEVY GEORGE

\$710

DESCRIPTION

Elegant and expressive, this stylized ceramic centerpiece was turned on a lathe of white refractory clay with a cylindrical base supporting a bowl-shaped top. A two-tone finish enriches the piece, with bright glossy red on the outside and matte black inside, visible through the wide top opening, that exudes highly decorative quality and striking allure. Perfect in a modern, monochromatic interior, this limited-series centerpiece from the Tribe Collection is available in a limited series of 99 pieces.
