SMALL RED HEAD SCULPTURE

\$265

DESCRIPTION

This unique sculpture is a bold and modern decorative object that will bring a splash of color and an unforgettable accent to any decor. The handmade ceramic work is hand decorated, as demonstrated by the brushstrokes and small imperfections on the surface. It is a piece whose delicate curves come together to form the stylized head of a woman. The red color of the face is contrasted by the yellow hair parted in the middle and accessorized with two pendant-shaped earrings in black.
