Bitossi Ceramiche

SMALL ROUND TURQUOISE VASE BY ETTORE SOTTASS

\$690

DESCRIPTION

Designed by the Italian architect Ettore Sottsass for Bitossi as part of an exclusive collection, this unconventional vase is composed of a cylinder enclosed between two disks. Its minimalist shape is highlighted by a color block decoration that features a soft blue glossy finish for base and body, and solid black matte finish for the top. The result is a striking effect that gives the piece a modern allure.
