SNAER BROWN COFFEE TABLE

\$5,710

DESCRIPTION

Inspired by Iceland ("snaer" in Icelandic means snow), this stunning coffee table is a superb accent in a modern living room that creates a dynamic combination of elements evoking the majesty of nature molded by ice and fire. The structure in brass with a square section supports two tops, one in solid Canaletto walnut and the other in white porcelain, separated by a golden crack evoking a stream of water that reflects the sunlight while the snow melts around it.
