SOGNO ILLUMINATO DI PESCATORE IRIDESCENT POLYCHROME LUSTRE VASE

\$3,300

DESCRIPTION

Squids in the midst of a school of fish swimming in an iridescent sea are the decorative subject of this lustreware piece, a decorative vase handcrafted following an ancient Persian technique. Obtained from chlorides, nitrates, and sulfates, the glaring metallic finish and texture are sealed by a second firing in a reduction kiln. This singular piece will be the glamorous house for single-stemmed flowers.
