SOLDATINO NUTCRACKER

\$150

DESCRIPTION

A poetic homage to the tiny toy soldiers in the feature-film Fantasia, this nutcracker exudes classical elegance with a modern twist. With an unconventional design, this nutcracker features two distinct pieces: a stately rectangular structure with a sloping edge in white Carrara marble to crack the nut, while a textured wooden base in darkened beechwood keeps it in place with a series of carved, concentric circles. A splendid addition to any kitchen decor, this piece is perfect for cracking nuts of all types and sizes. Hand-carved by i Frioli marble workers.
