Guido Niest

SOLE SCULPTURE

\$2,890

DESCRIPTION

This elegant sculpture resembles the sun. It is made of two disks whose glossy surfaces, one convex and the other concave, create a striking optical effect. The central small disk can hold flowers or other long objects. This exclusive series of only 10 pieces is numbered and signed and entirely hand-made of a unique alloy covered with a dusting of antioxidant precious metals with a final buffing called "white diamond".
