### SOLIMANO & ROXELANA OCHRE VASES

\$355

#### DESCRIPTION

A deft showcase of traditional handcrafting techniques with a modern touch, this refined set of vases will imbue visual intrigue into any rustic or modern interior. This pair of vases portrays Suleiman the Magnificent, ruler of the Ottoman Empire, and his wife Roxelana, their striking countenance marked by a warm ochre glaze that highlights the curves in full turban, flowing hair, and almond-shaped eyes. Both vases boast attenuated necks and thick-rimmed mouths, making them ideal for showcasing with long-stemmed flowers. Also sold individually, please contact the Concierge.
