Woodart Cortina

SOLO BOTTLE RACK

\$3,140

DESCRIPTION

Handcrafted with parts of wood barrels used to ferment Amarone wine, the staves used for this unique wine rack were selected specifically for the rich violet nuance inherited from the wine they contained. Seven slates are intersected facing each other to create an unconventional, original design. Each of the four slates facing the front features eight holes to hold the bottles. The supporting base is made of handcrafted iron and consists of a rectangular base with two slanted rectangular rods. A striking addition to a rustic or contemporary living room, this piece is sure to be noticed.
