SOPHIA MEDIUM GOLD CENTERPIECE

\$550

DESCRIPTION

Elegant and functional, this superb centerpiece is crafted by hand and celebrates the heart of Italian cities: the piazza. Exquisitely made of ceramic, this piece features a square portico with low arches that frame a spacious center that can serve as a display surface. The ceramic's pure white character is highlighted with luxurious 24k gold for a stunning visual effect. The minimalist design and the classical references of the silhouette make this a timeless addition to any decor, where it can be combined with other objects from the same collection.
