SOPHIE NEW BLACK FLOOR LAMP

\$2,715

DESCRIPTION

The stunning lampshade merges functionality and style in a minimal structure of matte-finished steel rods that will look stunning in a modern living room or office decor. The three legs are bent at the base and meet in the center forming a Y-shape that stabilizes the large drum shade made of PVC. Boasting a colorful design that is part geometric and part abstract, the removable cover displays a kaleidoscope of vivid red, orange, yellow and blue crisscrossing waves contrasted by a deep black background. This lamp is shipped in two separate packaging for lampshade and steel structure.
