## SOTTOBRACCIO BEIGE LEATHER DOCUMENT FOLDER

\$95

### DESCRIPTION

A must-have accessory to stay organized without sacrificing style, this document folder or laptop case has a casual yet distinctive look. The slim, rectangular shape is crafted by hand of regenerated nubuck leather in a delicate beige color and features a flip top that closes with an elastic loop and a chromed metal pin in the shape of a thin pencil. Boasting a soft hand feel, the leather was finished with a special treatment that protects the original color from fading and makes it also water-resistant. This sophisticated accessory can also be used to carry a small laptop and is available in other colors.
