SPAGHETTI CENTERPIECE/PLATE

\$140

DESCRIPTION

Either used as a centerpiece to display fruit or collectibles in a modern interior, or hung on a wall (thanks to two holes on its back) to add a textural decoration to an eclectic home, this plate will be a stunning accent. Its round silhouette was crafted by hand of ceramic with a delicate turquoise color. The standout element of this piece is its striking texture, evoking the shape of spaghetti in a bowl.
