SPHAERA PLATINUM VASE

\$530

DESCRIPTION

Part of the Sphaera Collection, this unique ceramic vase will infuse a striking decorative quality in a modern interior. A superb vessel for floral decorations, this vase is entirely handcrafted on a lathe to create its round shape. The small ornate handles are hand-applied and finished with precious platinum before firing the piece for time in the kiln, adding a striking texture to its smooth surface. It is possible to combine this with the other eclectic pieces of the series to create a dynamic effect on a console, mantelpiece, or coffee table.
